

**IEEE KITCHENER-WATERLOO**

**SECTION PRESENTATION**

***Prof. Jiri Vlach***

University of Waterloo  
Electrical & Computer Engineering Dept.

**“Life in a Communist System”**

The speaker was born in Prague, Czechoslovakia, lived there during the second World War, experienced a brief democratic period after the war and continued living there another 20 years before finally getting out during the occupation of the country by the Red Army.

The lecture will explain some aspects of life in the communist system, its economic and social issues, all mixed with personal experiences.
